

THE UNDERGRADUATE RESEARCH
AMBASSADORS PRESENT

STAYING ENGAGED WITH RESEARCH FROM HOME

April 12, 2020

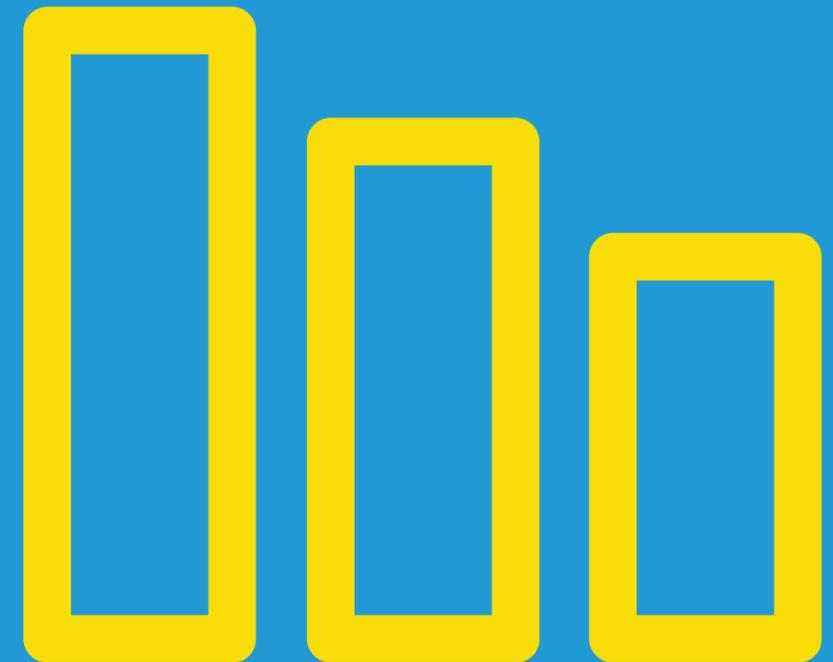

Virtual Lab Meetings

- Many labs are holding group meetings virtually via BlueJeans, WebEx, or Zoom
- Tune in to keep up with group business and progress on other projects!

Remote Research

- Check with your research mentor to see if there are tasks you can take on outside of wet lab
 - Data analysis
 - Simulations
 - Literature search

Reading Papers

- Keep up to date on research in your field, or explore your interests!
- The Georgia Tech Library provides access to:
 - Nature
 - Social Science Database
 - PubMed
 - And many more journals/databases
- Apps such as Read by QxMD

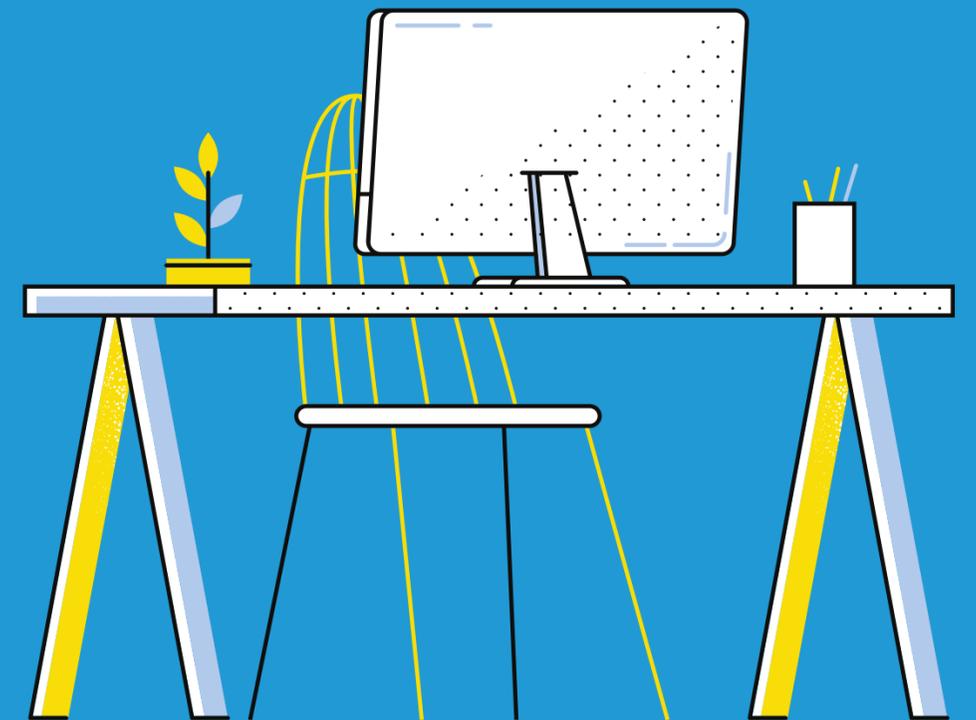

Form a Journal Club

- Reach out to other researchers or students interested in research to form a journal club for discussing papers
- Many labs may be doing their regular journal clubs virtually
- URA can help connect you with other researchers!

Learn a New Skill

- Now can be a great time to learn a useful skill for your research (and coursework)
 - A new coding language
 - Excel
 - Adobe Illustrator/Photoshop (providing 60 days free to students)
- Coursera.org is a free resource

Take care of yourself!

- Ultimately, your health, safety, and well-being are most important
- If continuing your research is not in your capacity currently, it is okay to take a step back, however long that may be
- Your best is enough right now
