

Update, sticker trading, daily events and free dice for Monopoly GO!

Jul 17 - Jul 18, 2025

Reward links are special links that give you free rewards, typically in the form of Dice Rolls. Some links change daily, while others remain active for weeks. During Partner Events, Monopoly GO! occasionally distributes event currency too!

Simply click on a link and it'll redirect you to the Monopoly GO! app and give you the rewards (if you've not already claimed it!).

Tournaments are limited-time competitive events in which players strive to collect a special currency through varying methods, detailed within the event's rules accessible via an icon on the screen, to earn prizes and rewards based on milestones and final leaderboard positions. These events are designed to match players of similar levels, affecting the rewards available.

Special Events

Special events happen throughout the day in Monopoly GO! and can help boost your progress. Each event starts and ends at a given time. However, some events have a window where they can start and once you open your app, the countdown until the event ends will begin (usually 30- 60 minutes). This list can

help you plan your dice rolls around various events to make the most of your experience.

Quick Wins are daily tasks in Monopoly GO! that offer players various rewards through a set of several challenges that reset daily and a weekly challenge that resets on Mondays. Completing these offers the potential to earn rewards for each task completed and extra rewards for achieving milestones, leading up to a final reward such as a 5 Star Sticker Pack or a WILD STICKER, upon fully filling the progress bar.

Tournaments are limited-time competitive events in which players strive to collect a special currency through varying methods, detailed within the event's rules accessible via an icon on the screen, to earn prizes and rewards based on milestones and final leaderboard positions.
